Respected Sir/Ma'am,

It is with deep sorrow that I share the news of the passing of my father, Ar. Deepak Mehta, on 1st June 2025. He founded M/S Deepak Mehta & Associates (DMA) in 1987, and for nearly four decades, led the firm with an unwavering commitment to discipline, punctuality, and hard work. His vision continues to inspire us every day.

In light of this, I wish to formally inform you that the practice will now continue under a new name - **DMA International**. This change is part of a natural transition and all ongoing projects, timelines and team members will remain unchanged. It is, in essence, a continuation of the same legacy with expanded capabilities.

Taking over the leadership of DMA International is both a personal and professional responsibility for me.

I am Kartikeya Mehta, an architect with a Bachelor's degree from Jamia Millia Islamia (2021) and a Master's in Building Information Modelling (BIM) Project Management from Queen's University Belfast, UK (2023). Over the past two years, I have been closely involved in the Building Information Modelling (BIM) domain in the UK, including hands-on experience in BIM coordination as part of a multidisciplinary consultancy.

I now return to continue my father's legacy, carrying forward the values he stood for while expanding the practice into new areas such as Building Information Modelling (BIM) - a digital methodology that streamlines design, coordination, and execution by integrating data-rich 3D models, improving collaboration and efficiency throughout a building's lifecycle.

We deeply appreciate your continued trust and support, and look forward to working with you under this new chapter.

Please feel free to reach out for any clarification or assistance during this transition.

Warm regards,

DMA INTERNATIONAL
